Open Letter

5th January 2012

Dear Mr. Miliband,

From the *Global Isles Court of Record* of our Sovereign Lady of the Common Law, Greeting!

It is my privilege to enclose a copy of the Open Letter to the Speaker of the House of Commons, The Right Honourable John Bercow, regarding the 100th anniversary of the Jekyll Island Accord and the monumental investigation before the U.K. attorney general.

As you are doubtless aware, the history of the last 100 years is definitive proof that Man's wealth and power arises from the use of Man's mind. The **new labour** that awaits us in the coming years is the use of our minds to create and trade wealth, to restore the practice of Common Law and to protect freedom and liberty by the use of deliverable contracts as currency. The constituency of this new labour are the gadget totting 'poor' who have no real money or property to fall back on.

The era of credit money put on deposit by the 'borrowers' is drawing to a close with the exponential rise of awareness of this practice by the people. It is a revolting and insane scheme effectively orchestrated by the United States of America's ESF (Exchange Stabilization Fund) which sequesters bank liability currency and produces the effect of value – that is, the 'strong dollar policy'. Made-up money is injected into various banks and governments as a 'bailout' to 'keep the world from blowing up'.

The property rights of the 'poor', the 'workers' and 'the rich' have been turned upside down and inside out to the point where there is no certainty in property rights, liberty and the *Rule of Law*. The common man in **every** country is enslaved by the invisible electronic chains of passports and void-contract 'money' – this has destroyed personal and national security, promoted war, genocide and holocaust – a fiasco if there ever was one.

The history of this 'financial crisis' is not a simple one. Wrongdoing has been allowed to carry on unabated. Exactly two hundred years ago, Baronet Sir Francis Burdett spoke strongly on 7th of January 1812 in Parliament on the grievances of the people. The U.K. Parliament and the Labour Party must carefully re-examine its role with a view to distance themselves from failed strategies that will only play into the hands of those who wish to perpetuate Economic Terrorism.

It is criminal to allow the current state of affairs to continue – perpetual bondage, Armageddon, arbitrary confiscation, debates squashed before inception by the bludgeon of the Official Secrets Act, a press scared witless by D-notices, and living in a *Panopticon* are not acceptable choices. Neither is it acceptable to have Her Majesty The Queen bound by Parliament. The Queen is the visible symbol of freedom, liberty and the *rule of law* and is the first amongst the people.

The former Prime Minister Gordon Brown, bound by the Official Secrets Act, cannot be expected to mentor the current Shadow Cabinet. The current Prime Minister, as he may have discovered having received our letter from the 27th of January 2011, is but the executive head of U.K. PLC. Members of Parliament have failed to object to loss of ability by the people to pay their debts at law. The appearance of representation is not actual representation. The appearance of debate is not actual debate.

Today, The Queen *per se* is not free to speak Her Majesty's mind. Statutes in Parliament are not expressly agreed to by Her Majesty the Queen, of Her Majesty's own free will. The Judiciary are unable to uphold Her Majesty's Coronation Oath and provide justice in a Common Law court. Parliament is operating under emergency powers and the Country is in a de-facto State of War in a time of peace. Consequently, all this is not in accordance with the Common Law. It is imperative that people all over the world are informed of this state of affairs. Failure to do so would amount to aiding and abetting War Crimes, Crimes against Humanity, and Economic Terrorism.

Understandably, solutions that 'address' all these interacting problems have been proposed in theory. Most theories are bound for shipwreck as they are set on a course that obviates **final settlement**. Clear explanation of the issues and *finality of settlement* in trade, are pivotal to peace. The Global Settlement Foundation has engineered a running solution, including *finality of settlement*, with world peace in mind. There is no need for the crutches of 'banking' when we can already run.

Leaders of the Opposition have long been held as people who voice their apprehensions and criticise the government. As the Leader of the Opposition, you may challenge wrongdoing and wrongdoers with impunity and hold the government and Parliament to account, re-examine the Parliament Act, the incorporation of the House of Commons and United Kingdom PLC, invite and seat *this court*, the Court of Record of our Sovereign Lady of the Common Law.

My best wishes to the Leader of Her Majesty's Most Loyal Opposition in the United Kingdom for the New Year. I am here to be of service to the people and our Sovereign Lady of the Common Law.

Yours sincerely,

Joseph Ray Sundarsson
