Dear Boris,

Courtesy copy of our reply to Raiffeisen, an Austrian bank, follows.

It is our wish that you use this, together with the basic economics lesson below, to do auster amongst bankers and industrialists who trade in London.

It has been quite comical watching ‘bankers’ deal with the ‘steel crisis’. Tempers have been raised about ‘dumping’ that ‘lowers the price’. This is economic illiteracy. Steel is wealth, numbers on a bank database are just sticks for faggots to get excited about.

> Charmed with his discourse, delighted to learn that it is so easy to promote, by
legislating, the prosperity of a people, the law-makers voted the restriction. ...

James B. is the possessor of fifteen francs, the fruit of his labour. He is now free. What does he do with his fifteen francs? He purchases some article of fashion for ten francs, and with it he pays (or the intermediate pay for him) for the hundred-weight of Belgian iron. After this he has five francs left. He does not throw them into the river, but (and this is what is not seen) he gives them to some tradesman in exchange for some enjoyment; to a bookseller, for instance, for Bossuet's "Discourse on Universal History."

Thus, as far as national labour is concerned, it is encouraged to the amount of fifteen francs, viz.: ten francs for the Paris article; five francs to the bookselling trade.

As to James B., he obtains for his fifteen francs two gratifications, viz.:

1st. A hundred-weight of iron.

The Decree is put in force. How does it affect the condition of James B.? How does it affect the national labour?

James B. pays every centime of his five francs to M. Prohibant, and therefore is deprived of the pleasure of a book, or of some other thing of equal value. He loses five francs. This must be admitted; it cannot fail to be admitted, that when the restriction raises the price of things, the consumer loses the difference.

But, then, it is said, national labour is the gainer.

No, it is not the gainer; for, since the Act, it is no more encouraged than it was before, to the amount of fifteen francs.

The only thing is that, since the Act, the fifteen francs of James B. go to the metal trade, while, before it was put in force, they were divided between the milliner and the bookseller.

The violence used by M. Prohibant on the frontier, or that which he causes to be used by the law, may be judged very differently in a moral point of view. Some persons consider that plunder is perfectly justifiable, if only sanctioned by law. But, for myself, I cannot imagine anything more aggravating. However it may be, the economical results are the same in both cases.

Look at the thing as you will; but if you are impartial, you will see that no good can come of legal or illegal plunder. We do not deny that it affords M. Prohibant, or his trade, or, if you will, national industry, a profit of five francs. But we affirm that it causes two losses, one to James B., who pays fifteen francs where he otherwise would have paid ten; the other to national industry, which does not receive the difference. Take your choice of these two losses, and compensate with it the profit which we allow. The other will prove not the less a dead loss. Here is the moral: To take by violence is not to produce, but to destroy. Truly, if taking by violence was producing, this country of ours would be a little richer
You will have to thank the French man, Frederick Bastiat, for the kind assistance he can thus render London. It remains to be seen if it results in just yet another statue to worship somewhere in London, or 'enlightened' action by Jesuit created Barons of London.

We suggest you print this fax and the entire 'That Which is Seen, and that Which is Not Seen' and confront the bastards trying to fuck over an English free trader.

We send our love to YHVH for thee!

Yours faithfully,

Dear Petra MAZUR,

Thank you for acknowledging receipt of our fax.

We assist The Sovereign in the dissolution of your bank.

The courtesy copies you have been sent is to prepare your legal team to deal with irate 'elite' customers.

Any bank is an 'instrumentality' of the State. The State, in any Country, is a corporation chartered by the Bishop of Rome via the Queen of England. Rome, where Caesar was worshipped, fell to ruin at the advent of Jesus Christ, YHVH who walked in earth. Bankers have been entrapped into the worship of Caesar. Bankers have entrapped the gullible elite into worship of an imaginary number in a database.

Examples of corporations we are in the process of dissolving or have de-facto dissolved: The United States, the Federal Reserve, the European Union, City of London, IMF, BIS, The Vatican City State and Washington D. C.

AUSTRIA is just a name in business with no substantial assets. You have a bunch of fascist pricks in charge, placed there by The Sovereign. There is a built in civil war. Google Operation Gladio. Austria continues to be subject to the terms of the 1945 surrender to the Allies, which means, Allies for the rule of God’s Law.

Your bank is no different. It is a minor player on the fringes of society. Your
'personal name' indicates that you are not as ignorant as you may claim to be. The 'all CAPS' last name indicates that you claim that you are not personally capable of speaking for yourself or your bank.

We suggest that you and your legal team adopt a humble learning attitude and read all the Amicus curiae(s) of this Court of Record.

Seen the 'pyramid' on the back of a One dollar bill? it has an eye on the top. In picture language it says 'Holy See'. The Federal Reserve was chartered by the Holy See via the Queen of England. The 100 year charter is over. The gold-based Federal Reserve is no more. There is no more gold that can be recovered by taxation. The dissolution of the IRS, it appears, has been signed off on.

There is no escape. We know how Raiffeisen likes to fuck over the little guy. We have an example case that is sub judice in this Court of Record. There is no escape for you. Each of you already has a parole card, politely called a 'passport'. Passport control is a 'jail' to keep bankers from running away. The ruse about immigration and migrants is for idiots who cannot reason. An idiot is a full time lunatic, with whom reason never prevails.

CERN, the blackmail weapon of bankers, can be disabled at will: http://www.the.local.ch/20160430/pop-goes-the-weasel-as-hadron-collider-shuts-down

We suggest that your shareholders and directors visit www.courtofrecord.org.uk every day. Today, for example, there is an explanation suitable for the 'elitist' Cult of Bowie and Darwin, made popular amongst bankers:

Putin: www.courtofrecord.org.uk/Putin-PDF
China: www.courtofrecord.org.uk/China-1

There is plenty of time, why the rush. The LORD is merciful. The LORD waits patiently for slumbering bankers.

Bankers must wake up to how banks work and as to what action of this Court of Record has already effectively de-monetized bank liabilities resulting in the 'plunge' of the oil price and the the 'plunging' necklines of blouses for women paraded on catwalks:

Credit Suisse, FIFA and WEF were informed: www.courtofrecord.org.uk/FIFA+WEF

It is our wish that you ensure this email is sent to the shareholders and board
members of your 'bank'.

We remind each of you of your unlimited personal substantial liability.

We send our love to YHVH for thee!

Yours faithfully,
