Our contemplation regarding Bills of Exchange and how they can allow even a tax collector like Zacchaeus to repent and make amends for his greed follows:

Dear George W. Bush,

[snip]

We have contemplated in detail Luke 19 and the plight of tax collectors and regarding U.C.C. Mirror Reflection. The grace of Mahakali shows us that it is possible for them to fulfill:

*Luke 19:8 And Zacchaeus stood, and said unto the Lord: Behold, Lord, the half of my goods I give to the poor; and if I have taken any thing from any man by false accusation, I restore him fourfold.*

In brief, you need a money source and a sink. Everything is "mirror reflected" in commerce. In the example of Costa Rica, what President Solis must do is come up with Pro Forma Invoices for goods imported by

Costa Rica. These can be "Accepted for Value" and placed on deposit with a 3 Yr expiry date. On the first day of the fourth year the note will be worth zero. When the acceptance is done by this Court of Record of YHVH, this becomes primary money-of-account.

The 'tax collectors' must then go 'repay' all those they have taken money from by "false accusation" fourfold - in 'cash money' for them to spend.

'Cash money' can be printed with a three year expiry date interchangeable with money-of-account.

'Banks' will want access to TruLedger once they wish to 'transmit' this money of account without shipping paperwork back and forth.

We send our love to YHVH as Rudra for thee!

Yours faithfully,

We have also taken steps against those who sought to abuse the system of 'banking' that exists.

This we believe is evidence that there is a 'black' operation, which we believe is coordinated by Mrs. Green, to make a Bills of Exchange very unpopular.

Ye shall contact the Duke and Duchess of The Rock and have them contact this restaurant to pay the bill.

The mechanism we have explained in our last email, the process will create Bills of Exchange on deposit in Euros for Europe.

> In brief, you need a money source and a sink. Everything is "mirror  
> reflected" in commerce.

In this example, the Pro Forma Invoice is from the restaurant.

Have the restaurant raise a Pro Forma Invoice for 1 years worth of free meals. They can then renew that invoice annually. Every restaurant will want to do this. This is good!

We send our love to YHVH as our LORD Jesus Christ for them and for thee!

The one we know as Keir has taken the first step to placing such Bill of Exchange on deposit. His email regarding the one to 'Lilly Engineering', follows:

Date: Thu, 20 Apr 2017 18:40:13 +0100  
From: Keir Argent  
Subject: Fwd: Re: Product list for PFI

Dear Sir,

For the record.

Please see email below to Lilly Engineering and attached 'Accepted for Value' PFI.

Yours faithfully,

Keir Argent

Hi Patrick,

Further to our earlier conversation today, please print out the attached PFI 'Accepted for Value' and present to your bank with a bank deposit slip crediting the amount to your account.

That's all that's needed, it does not have to be presented by an officer of your company, same as depositing a check.

If there are any questions, refer them to me at the email given under my signature kargent@courtofrecord.uk.

Best regards,

Keir

It is our wish before YHVH that all such deposits are “tax exempt”. Such *Pro Forma Invoices* may be transmitted electronically, for example, by email, or by fax. It is the conscious acceptance for value and the corresponding conscious creation of the deposit that creates the money-of-account.

The market will work out how to *forgive*, that is, expire this money-of-account. We believe that a negative 33.33% S.I. on circulating money-of-account will serve the purpose. Accumulation of such money-of-account is fruitless; the expiry serves to accelerate trade.

The balance between the creation and destruction of such money-of-account will naturally allow exchange rates to widely traded commodities such as oil and gold to return to pre-1914 levels.

We have seen in detail the history of accounting that has led to this day, from the definition of “pay” by the then Austrian Emperor, to the Bills of Exchange system in London, to the use of bank credit, to “Modern Money Mechanics”, to the demonstrated incapacity of today’s “Bankers”, “Chancellors”, “Lawyers”, and “Chartered Accountants” to understand the instruments they use.

We recall Your Majesty’s visits to the Bank of England, to the London School of Economics, to the Cabinet Room as examples of when such incompetence was visibly demonstrated for all to see. We also recall the petulant ignorance of the Chancery courts and Solicitors regarding KEISON INTERNATIONAL LIMITED; we also recall the humorous news report of how bankers were only going to sign contracts they “understood”. It is the same in America, Malta and Switzerland.

We shall forward under separate cover the *Pro Forma Invoices* and certain flight travel arrangements that have been made.

It is our wish before YHVH as Lakshmi Narasimha that those whose responsibility it is, take such steps that are necessary to ensure a safe flight and no hassles at ‘customs’.

We send our love to YHVH for Your Majesty!

Yours faithfully,
